### Abbreviations

CAB... External cabinet width (with 16-19mm board)

MIN... Minimum

W..... Internal cabinet width

H..... Internal cabinet height

D..... Internal cabinet depth

 Denotes soft close function

## Soft Close Drawer Systems

Drawer-based storage provides an ideal mix of space efficiency and convenient access.

Fit offer a variety of soft close options:

**SlimFIT** provides excellent value for money yet covers all common requirements.

**Ritma** includes many model types including standard drawers, inner drawers, and various railing and/or side panel configurations.

For a premium slimline drawer with 'ever active' push to open that operates from partially open as well as from the closed position, **Simlead's** model options are a go-to.

For a contemporary look that stands up to being installed with open fronts, consider **Tanova's ventilated drawers** – New Zealand Made certified and available in a custom colour option!

# ***harn***<sup>®</sup> RITMA cube

## **Premium Performance, Reasonable Pricing**

- Silent integrated soft closing cushioning system
- Integrated lateral stabiliser
- Flexible two-dimensional front adjustment
- Compatible cutting and drilling with other well-known brands
- Available in standard lengths from 270mm to 550mm
- Load capacity of 35kg and 60kg

Harn Ritma Drawers, S and MSQ Models  
Installed by KitchenTech of Patumahoe,  
Auckland / Photo courtesy of KitchenTech

## So Many Models!

Your project is special to you and we understand that. That's why the Harn Ritma soft close drawer range offers a multitude of model options, with front-to-back depths ranging from 270mm to 550mm.

Standard load capacity is 35kg per drawer, enough for most domestic use. For those that need a little more though, many models can be upgraded to a 60kg load capacity.

- Standard drawers
- Inner drawers
- Classic round rails
- Contemporary square rails

## King Slide®

### Simlead

#### Models with Soft Close and Push to Open with Soft Close

- Slim. Safe. Premium.
- Metal walls just 13mm thick
- Synchronised movements for minimal noise and smooth-running motion
- Smooth, consistent soft-close action
- 8-way adjustment, including depth, side, height and tilt, for precise gap alignment
- Easy installation and easy removal via a unique locking device
- Available in 4 heights: B (97mm), C (138mm), D (185mm) and E (249mm)
- Available in 2 colour options: classic white and dark grey
- Available in several runner lengths: 350mm, 400mm, 450mm, 500mm and 550mm
- Available in 2 load capacities: 40kg and 70kg
- Tested to 100,000 cycles (independent lab with 40kg, Kingslide lab with 70kg)

Photo courtesy of Duncan Joinery, Temuka

## 'Ever Active' Push to Open!

- Truly innovative technology that means you can open the drawer a little further if it stops short
- Ideal for when your hands are dusty, sticky, or even just full!
- Nudge the open drawer with you knee, hip or toe . . . and it opens further

## Inner Drawers Too!

- Kits available to convert some Simlead drawers into 'inner drawers'
- Perfect for pantries and for making the most of cabinet space
- 2 width options for inner drawer front panels, trimmable to suit your needs

Talk to your designer, kitchen maker, cabinet maker, or directly to Fit about the wide range of Harn Ritma models, or visit [www.fit-nz.co.nz](http://www.fit-nz.co.nz)

SlimFIT soft close drawers with Alba cabinet handle in Titanium Bronze  
See Fit's cabinet handle catalogue for beautiful handles and knobs designed and made in Italy

## slimFIT

**A reasonably priced, slimline soft close drawer with a quiet and smooth operation**

- SlimFIT is supplied as a kit that includes runners, side panels, front fixing brackets, rear brackets and cover caps, and attaches to your drawer fronts, bases and backs
- 35kg or 50kg load capacity depending on model
- Slimline drawer sides – just 13mm
- 6 runner length options
- 3 drawer side height options
- **Inner Drawers:** Kits are available to convert some models to inner drawers; front panels are trimmable to suit your needs

## Drawer Organisers

With FIT's fantastic range of drawer organisers, you can turn chaotic kitchen drawers into tidy spaces that are efficient to access and a joy to use. High quality plastic? Modular stainless steel? Freeform? Yes!

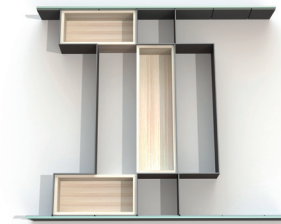

# Open Space Drawer Organising System

- Flexible, contemporary drawer organising system using plastic profiles, steel dividers and wooden boxes
- Mix and match components to create your own customised drawer layout
- Add your own patterned drawer liner or inlay mat underneath to create a unique, attractive finish

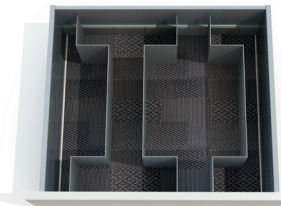

## How does it work?

- You select the Open Space profiles, dividers and wooden boxes you require
- You add your own inlay or drawer liner to get the look you want
- Plastic profiles in black are trimmed from 1200mm lengths to fit front and back of drawer
- Steel dividers in black or white fit into precut slots in plastic profiles
- Wooden boxes in oak nest within steel divider

Item Code	Description	Colour
DR0104	Open Space Plastic Profile, 1200mm long, (2 required per drawer)	Black
DR0105	Open Space Steel Divider, 467 x 51mm high	Black
DR0106	Open Space Steel Divider, 467 x 129mm high	Black
DR0113	Open Space Steel Divider, 467 x 51mm high	White
DR0114	Open Space Steel Divider, 467 x 129mm high	White
DR0107	Open Space Wooden Box, 162 x 80mm	Ash
DR0108	Open Space Wooden Box, 298 x 80mm	Ash

51mm high dividers  
(sample layout for 600mm)

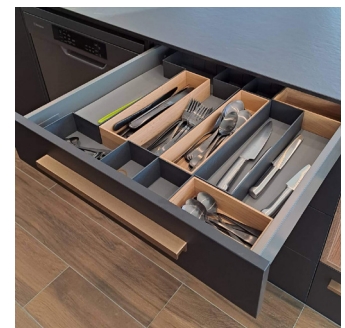

129mm high dividers  
(sample layout for 600mm drawer)

Open Space 129mm dividers are excellent plate stack holders

Add your own patterned drawer liner or inlay mat underneath to create a unique, attractive finish

## Door Control Systems

From quality brands like Salice, Duras and Cinetto, Fit supply a range of pocket doors, bifold systems, overhead lift and falling flap hardware and soft close hinges.

## Exedra1 Single Pocket Door

Salice's Exedra1 Single Pocket Door is designed and made in Italy. It's a mechanism that attaches to cabinet or cupboard doors and allows the door to pivot 90° to slide back to sit within a double cabinet wall. Ideal for when you have limited space and open doors get in the way. Ideal for when you have a work area housed within a cabinet or cupboard and would like for the doors to be out of the way when open so that light is not blocked.

In the kitchen, think pantries, appliance zones, home bars and coffee stations. In the laundry, contain appliances or make your linen cupboard super accessible. Create an easily accessed and easily closed-away study area or work-from-home space. Keep the work bench in the garage tidily (and safely!) closed off, but easy to get to and use. Create space-efficient storage space in the office.

### Features:

- Sliding door motion made effortless with unique rotating cam door movement
- Cushioned door insertion
- Noiseless magnetic door speed control
- Soft closing and soft opening buffer
- Slide in movement facilitates installation/removal of mechanism
- Quick coupling hinges
- Left and right hand models available
- All adjustments accessible from front of cabinet; no need to remove door to adjust
- No complicated scissor mechanisms or pulleys

### Technical Specs:

- Suits doors from 18mm to 30mm thick
- Suits door heights from 1333mm to 2730mm high
- Suits doors from 400mm to 900mm wide
- Maximum weight per door: 30kg (distributed evenly)
- Vertical adjustment +4mm/-1mm
- Front adjustment +/-4mm
- Internal pocket width required 55mm

## SALICE

To see the Salice  
Pocket Door in action,  
visit the Video Gallery  
page of our website:  
[www.fit-nz.co.nz](http://www.fit-nz.co.nz)

Don't take our word for it! Here's what a kitchen manufacturer's production manager has to say about Salice's Exedra pocket door:

*"In short, we find that they work better as a product, they are easier to adjust during fit-up, and the initial fit-up for a double door system only takes between 4-8 hours (depending on the size of the job) as opposed to our previous system which took 1-3 days to fit-up."*

**Guy Erasmus, Production Manager, Customtone Kitchens**

## Exedra2 Bifolding Pocket Door SMART Model

Salice's Exedra2 Bifolding Pocket Door is designed and made in Italy. It's a patented mechanism that moves two joined doors simultaneously, and it optimises space in many applications: walk-in wardrobes, pantries and sculleries, storage areas, and work-from-home spaces.

Exedra2 is available in 2 models: **SMART**, where panel edges are visible when the door is folded back into the cabinet pocket, and **STAR**, where a handled front panel sits across the cabinet pocket opening.

### Exedra2 Smart Features:

- Self-supporting mechanism fixes to the side of the cabinet
- No load-bearing frontal profiles on the top or bottom of the cabinet, so no need for additional central supports
- Motion-control system means flush handles can be fixed at the edges of the doors, allowing effortless opening and closing with one hand
- With the aid of the electric Push kit, it is possible to use both versions on handle-less furniture
- Exterior door surfaces are protected throughout the opening/closing motions
- Folds back into cabinet leaving door panel edges visible
- Enables door panel sizes to be consistent and equal across the cabinet face

### Exedra2 Smart Technical Specs:

- Suits doors from 18mm to 25mm thick
- Suits door heights from 1800mm to 2600mm
- Maximum weight per door: 50kg (25kg per door panel)
- Suits doors from 550mm to 850mm wide (per panel)
- Minimum cabinet depth: 630mm
- Required internal pocket width: 180mm
- Required door panel gaps: 3mm
- Minimum side panel thickness: 18mm
- Vertical adjustment  $\pm 5$  mm
- Horizontal adjustment  $\pm 3.5$  mm
- Front adjustment: - upper  $\pm 3$  mm and lower  $\pm 2$  mm

## Exedra2 Bifolding Pocket Door STAR Model

**SALICE**

Salice's Exedra2 Bifolding Pocket Door is designed and made in Italy. It's a patented mechanism that moves two joined doors simultaneously, and it optimises space in many applications: walk-in wardrobes, pantries and sculleries, storage areas, and work-from-home spaces.

Exedra2 is available in 2 models: **SMART**, where panel edges are visible when the door is folded back into the cabinet pocket, and **STAR**, where a handled front panel sits across the cabinet pocket opening.

### Exedra2 Star Features:

- Self-supporting mechanism fixes to the side of the cabinet
- No load-bearing frontal profiles on the top or bottom of the cabinet, so no need for additional central supports
- Motion-control system means flush handles can be fixed at the edges of the doors, allowing effortless opening and closing with one hand
- With the aid of the electric Push kit, it is possible to use both versions on handle-less furniture
- Exterior door surfaces are protected throughout the opening/closing motions
- Completely hides the door panels behind a cover panel, whether doors are open or closed

### Exedra2 Star Technical Specs

- Suits doors from 18mm to 25mm thick
- Suits door heights from 1800mm to 2600mm
- Maximum weight per door: 50kg (25kg per door panel))
- Suits doors from 450mm to 750mm wide (per panel)
- Minimum cabinet depth: 730mm
- Required door panel gaps: 3mm
- Minimum side panel thickness: 18mm
- Vertical adjustment  $\pm 5$  mm
- Horizontal adjustment  $\pm 3.5$  mm
- Front adjustment: - upper  $\pm 3$  mm and lower  $\pm 2$  mm

SAL552	SAL555	Pacta Fall Flap Door System, Satin Metal Black

## Supplementary Hinges for Wide Doors

Item Code	Description
SAL553	Extra Central Hinge for Doors >900mm Wide, Classic White
SAL554	Extra Central Hinge for Doors >900mm Wide, Satin Metal Black

**SALICE**

## Soft Close Hinges

A comprehensive range with a perfect closing action

### Streamlined Salice

Salice's soft close mechanism is in the bowl of the hinge, so a streamlined arm is retained, making for a more attractive aesthetic.

### Advantages after installation

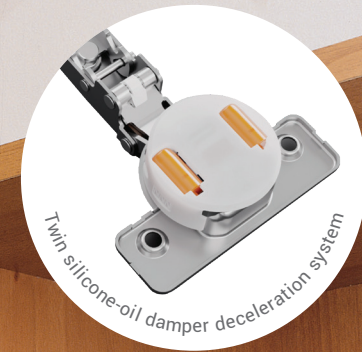

Salice retains the 1.5mm gap between the door and cabinet carcass when you adjust the hinge, making adjustment a one-step rather than a multi-step process.

And, for those occasions where you need to add a restrictor clip to prevent doors opening too far, the Salice restrictor clip can be added without uninstalling the hinge.

### Silentia+: Innovation and excellent performance

- Advanced twin silicone-oil damper deceleration system for consistently perfect soft close, whether the door is heavy or light (pictured top right)
- Discreet switch allows deceleration adjustment
- Available in 45° long arm, 90° blind corner, 155° zero protrusion and 105° full overlay

## SALICE Silentia+

## Wine Storage

Echelon modular wine storage units stack and nest to form an architectural look that is extremely space efficient, with over 90 bottles per square metre.

Or perhaps you're looking for a simple pull out to build into kitchen cabinetry? Vauth-Sagel's soft close bottle storage is for you!

# Echelon Bottle Storage System

- Modular bottle storage units slide and snap together to form a modern architectural look
- Unique S-shaped aluminium bottle module with natural satin anodising
- Extremely space efficient, with over 90 bottles per square metre
- Build up stacks, then insert centre rod to secure
- Wall brackets then secure the tubed stack to a vertical surface
- Build side by side stacks into kitchen or dining room joinery, into a cupboard or attach to the wall
- Offset from wall to sit wine bottles deeper into the rack and/or to allow for dramatic backlighting

## Pop Up Power Outlets

Enjoy the pop-up convenience of extra power on your kitchen bench or island, or for your meeting room tables. When not in use, down they go until needed again.

Some models allow for your benchtop material to be inserted into the top for a perfect match.

## Modern Power Solutions Pop Up Power Outlets

When designing homes and offices we make decisions about the smallest of details, as it is the detail of modern spaces that sets them apart. When it comes to deciding on electrical fittings, however, many people don't look any further than the white plastic plug, assuming that's their only option.

That's why Modern Power Solutions is revolutionising the way we access power in our kitchens, offices and other spaces.

Simple installation:

- Cut hole with correct diameter
- Insert unit
- Plug into standard power point installed below benchtop
- Ready for immediate use!

### V7BSSB

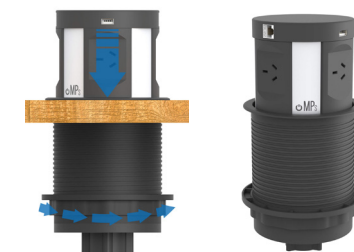

- Brushed stainless steel top, silver shell, black outlets
- 82mm installation hole for best fit
- 280mm required for depth, from top of surface
- 2 x outlets
- 2 x USB charging outlets
- Cable Length: 175cm
- Cable Type: H05VV-F (3 x 1.5mm<sup>2</sup>)
- Plug: XH022B (250V 10A)
- Degree of Protection: IPX0 (against harmful ingress of water), IP2X (against access to hazardous parts and against harmful ingress of solid foreign objects)
- Rated Voltage: 240V~
- Rated Current: 10A

Item Code	Description
V7BSSB	Pop Up Power Outlet, Brushed Stainless Steel, Black Face, 2 Outlet, 2 USB

### V14

- Matt black top, black shell, black outlets
- Refined hardened scratch-resistant PVC plastic
- 120mm installation hole for best fit
- 180mm required for depth, from top of surface
- Quad sided
- 2 x outlets
- 2 x USB
- 2 x RJ45 data outlet
- Qi wireless charging top
- Cable Length: 180cm
- Cable Type: H05VV-F (3 x 1.5mm<sup>2</sup>)
- 2 x Cat6 Cables
- Plug: XH022B (250V 10A), 2 x RJ45 plugs
- Degree of Protection: IPX0 (against harmful ingress of water), IP2X (against access to hazardous parts and against harmful ingress of solid foreign objects)
- Rated Voltage: 240V~
- Rated Current: 10A

Item Code	Description
V14	Pop Up Power Outlet Black, 2 Outlet, 2 RJ45 Data Outlet, 2 USB, Qi Wireless Charging Top

## PointPod Pop Up Power Outlets

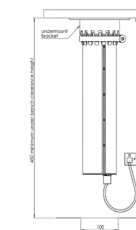

- Pop up power outlets ideal for use in stone or timber benches
- Can be installed upside down and, in some cases, horizontally
- Electric lift raises unit at touch of a button
- Designed in conjunction with builders, cabinet makers and stone masons for straightforward installation
- Winner of Good Design Australia award for product design in building and hardware category
- IP44 rated – compliant for use in a kitchen with a 10a load rating
- Benchtop material can be used in top of Pointpod unit, making for a perfect match to benchtop colour/texture when closed/down

### Compact Units

- Available in white or black
- 2 power points
- Can be installed horizontally
- Cable Length: 1.9m
- Supply Voltage: 110-240Vac 50Hz
- Max Current: 10a or 2400W (total load connected not to exceed rating)
- Overload switch
- For indoor use only
- Dimensions:
  - Hole: 100mm diameter +0.3mm -0.7mm tolerance
  - Inner disc: 92mm +0.7mm -0.3mm tolerance
  - Space required in cabinet: 450mm depth, 160mm in diameter
  - Benchtop thickness: 20mm +0.7mm -0.3mm tolerance
  - Packaging: 200 x 140 x 670mm

Item Code	Description
PPC01	Pop Up Power Unit Compact, 2 Outlets, White
PPC1B	Pop Up Power Unit Compact, 2 Outlets, Black

### Multi Units

- Available in white or black
- 3 power points plus 1 x USB A and 1 x USB C
- USB: Fast charge 4.2a (2.1a per outlet allowing charging of two devices simultaneously)
- Safety devices – 2 pole switching, automatic stop on travel down if anything jams, 10a load limit with overload switch
- Cable Length: 2.2m
- Supply Voltage: 110-240Vac 50Hz
- Max Current: 10a or 2400W (total load connected not to exceed rating)
- Overload switch
- For indoor use only
- Dimensions:
  - Hole: 100mm diameter +0.3mm -0.7mm tolerance
  - Inner disc: 92mm +0.7mm -0.3mm tolerance
  - Space required in cabinet: 550mm depth, 160mm in diameter
  - Benchtop thickness: 20mm +0.7mm -0.3mm tolerance
  - Packaging: 200 x 140 x 770mm

Item Code	Description
PPM02	Pop Up Power Unit Multi, 3 Outlets, 2 USB (1 x A and 1 x C), White
PPM2B	Pop Up Power Unit Multi, 3 Outlets, 2 USB (1 x A and 1 x C), Black

## Need some reassurance about Fit's service and product quality? You don't need to take our word for it!

"We have been using FIT products in our custom-made kitchens for many years. The products are of high quality, and we always receive excellent customer service from the FIT team. We would have no hesitation in recommending their products."

**Kiwi Kitchens, Christchurch**

"FIT staff are always friendly, knowledgeable, and willing to help. They provide a great range of products at competitive prices. They stand by their products and follow up with great customer service, ongoing support and regular information and product updates that I can share with my clients."

**Karen Warner, Perfect Order Kitchen Design, Wellington**

"FIT, you guys have been amazing! Your product arrives to us quickly and well packaged. And if we ever need any help our rep is fantastic to deal with. We very rarely have trouble getting stock. And if we do the communication is really good. 10/10."

**Rebecca, Handcraft Kitchens & Joinery, Opawa, Christchurch**

"I love dealing with FIT and would encourage anyone who hasn't tried them already to give them a go. They have a huge range of products at a good price and have prompt delivery. We never have any issues with the products and will continue to use them in our joinery. We couldn't be happier with the relationship we have with FIT."

**Jennings Joinery, Christchurch**

"FIT have always provided our company with excellent service. Their sales agents are knowledgeable and always respond to any questions quickly. Our company always spec FIT products before others. They offer value and service. We look forward to maintaining our working relationship for the years to come."

**Hunter Anderson Architecture, Christchurch**

"I've used FIT for many years now. It's always great service, but the best measure of how good a business is is how they react when there's an issue or problem. On the rare occasion we've had one, it's been sorted out immediately. There are no excuses or blame, just a fix."

**The Villa Wardrobe Company, Helensville, Auckland**

"Well run and supportive business that takes pride in focusing on relationships. Communication prompt and clear, and always a can-do team!"

**State of Ply, Mount Maunganui**

"What a fabulous company to deal with, great range of top quality products and constantly keeping ahead of the game."

**Tony Cooper, Cooper Furniture & Joinery, Stokes Valley, Lower Hutt**

"FIT are very easy to deal with. Their sales people are well trained in all their products and helpful in finding the right product for our needs. A great range of products."

**Andy Sowden, Homeowner, Auckland**

"FIT is a fundamental supplier to our business. Their products are very high quality and offer great solutions for our needs. Their service is second to none."

**Matakana Kitchens & Joinery**

"Great company ethics. Great staff and management. Great products backed up by a great service. You couldn't ask for more."

**George Hurren, Personalised Kitchens & Joinery, Picton**

"I have been using FIT products for all of my career and I just love them. Easy to spec and install. Great customer service throughout the process and really innovative with coming up with new and interesting products to make clients' lives easier."

**Sophie McDougall-Wenn, Stella Design Co, Whanganui**

"The service that I have received from your company, when I had a small issue with one of my kitchen drawers, was par excellence. The response was prompt and the information given expert and effective."

**Ian Rainey, Homeowner, Auckland**

"Great Service. Great Products. Great Delivery Times. One of the best suppliers out there."

**Dream Doors, North Shore, Auckland**

"We have been using Fit for many years now. The customer service is the best in the industry. All of the Fit team have a passion for the product. They will go the extra mile to make sure we, the client, are getting the products we need when we need them."

**Brendon Dunn, Contrast Interiors, Henderson, Auckland**

# Notes

## Have you seen all of Fit's storage solution catalogues?

Our collection of six catalogues covers our comprehensive range of storage solutions for kitchen, laundry, work-from-home spaces and more!

These catalogues provide in-use imagery alongside detailed information about specifications and variants available. You'll find lots of detail to assist your decision making process, and we're here to help if you need to know more!

Ask your designer, kitchen maker or cabinet maker for other Fit catalogues, or contact us directly and we'll be happy to send them to you; email [info@fit-nz.co.nz](mailto:info@fit-nz.co.nz) or phone 0800 852 258. Or you can download them from our Resource Download page at [www.fit-nz.co.nz](http://www.fit-nz.co.nz)
